

DOG-ON-IT PARKS

DOG-ON-IT-PARKS.COM

Our 22 Gallon Pet Waste Receptacle is manufactured with heavy gauge perforated steel that is coated with durable, textured polyethylene to help seal out rust and corrosion. The smaller size allows for easy unloading and maintenance, and the flat top helps to hide trash from rodents and other critters. Designed to complement our Deluxe and Basic Dog Paw Benches, the standard colors are red/blue or green/black.
