

DOG-ON-IT PARKS

DOG-ON-IT-PARKS.COM

This smaller version of our Eco Dog Walk Ramp is ideal for pocket parks and shy/small dog areas. It features a winning combination of recycled aluminum and durable, maintenance-free HDPE plastic. Our exclusive PawsGrip™ coating, a VOC-free polyurea, provides slip resistance in all weather conditions. At 24" high and 16" wide, this makes a great entry level component (though experienced agility pros will enjoy it too)! It features versatile base plates for portable, inground mounting or semi-permanent/seasonal installations.
