

DOG-ON-IT PARKS

DOG-ON-IT-PARKS.COM

The Bow Wow Barrel offers an extra wide diameter to accommodate canines of all shapes and sizes, and the straight tube section allows dogs to easily see through to the other side. Like all of our tunnels, the Bow Wow Barrel's interior is highly textured with our proprietary material to provide years of slip resistance. Laser cut end panels are available in Red/Yellow, Green/White and Black/White with customizable dog house panels as well. Standard tube colors are Green, Blue or Red.

Dimensions:

6703
