

No off-leash area is complete without an Agility Walk! This set of five disks of varying heights encourages your dog to step or hop to each one. The 14", perforation-free diameter is appropriate for dogs of all sizes, and installation in small dog areas of the park is easily modified to accommodate the legs of our more petite friends. Standard colors are Red or Green, with custom colors available at additional charge.

## **Top and Side Views:**

6413 AGILITY WALK

Set of five: 10 gauge, rust proof reinforced aluminum disks free of perforations
