

With three jumps in one component, the Tri-Level Jump is a space saving play feature suitable for any dog park. With different heights to help dogs of various sizes and ability levels develop jumping skills, this is manufactured with eco-friendly solid poly and rust-proof aluminum uprights. The planks also feature routed paw and bone details to assist with depth perception, and can also be customized with your park or community name. Standard colors are Red, Blue or Green, with custom colors available for an additional charge.
