

Available in three color configurations, the Triple Bow Wow Barrel offers an extra wide diameter to accommodate canines of all shapes and sizes, and the straight tube section allows dogs to easily see through to the other side. Like all of our tunnels, the Triple Bow Wow Barrel's interior is highly textured with our exclusive material to provide years of slip resistance. Standard end panels are laser cut in either Red/Yellow, Black/White or Green/White, with routed customizable dog house options as well.
