

**DOG-ON-IT PARKS**

DOG-ON-IT-PARKS.COM

Cool off with our exclusive Top Spray Hydrant! This set of two hydrants includes one with a push button activator and a 20 foot supply line to the spray feature that releases a four to five foot high mist. Cast and rotationally molded from an authentic fire hydrant, we use durable reinforced resin and a UV clear coat to ensure years of fun. More efficient than spray pads, these use less than two gallons of water per minute and the interior plumbing components include the completely plumbed valve mechanism with shut off drain valve, pressure reducer and back-flow preventer. Standard color is red and custom colors/logos are available.

# 7280 TOP SPRAY HYDRANT

**Set of 2: Glass fiber reinforced resin and UV clear coat, custom colors available**

**Requires potable water supply connection, 3/4" D and max 60 psi**

**Adjustable timer from 10-60 seconds and 20 foot supply line from activator hydrant to spray feature**

**Pre-drilled 1/2" mounting holes**
