

**DOG-ON-IT PARKS**

DOG-ON-IT-PARKS.COM

Our 22 Gallon Pet Waste Receptacle is manufactured with heavy gauge steel that is coated with a UV stable, extra-thick poly-vinyl to help seal out rust and corrosion. The smaller size allows for easy unloading and maintenance, and the flat top helps to hide trash from rodents and other critters. Designed to complement our Dog Paw Benches, the standard colors are red/blue or green/black with other color options available as well.

**Top and Side Views:**
