

Handcrafted with durable reinforced resin and detailed to look like the real thing! The Dog Through the Log is designed to easily accommodate our larger friends with a generous 30" height and length of 48". Just like all our NatureDog components, it features heavy duty flanges to accommodate anchor bolts for permanent installations or landscape stakes/staples for more flexibility. These unique components accentuate the natural environment and no two pieces are exactly alike.

ND7102 DOG THROUGH THE LOG
