

Handcrafted with durable reinforced concrete and detailed to look like the real thing! The Dog Leg Walk allows your dog to practice its balance and jumping skills by walking down one narrow log and hopping onto the other. Just like all of our NatureDog components, it features heavy duty flanges to accommodate anchor bolts for permanent installations or landscape staples for more flexibility. These unique components accentuate the natural environment and no two pieces are exactly alike.

## N7103 DOG LEG WALK
