

DOG-ON-IT PARKS

DOG-ON-IT-PARKS.COM

Our eco-friendly plank-style walk is manufactured with a winning combination of recycled aluminum and maintenance-free HDPE plastic. The walking surface features our exclusive PawsGrip™ coating, a VOC-free polyurea that provides slip resistance while the color strips provide depth perception and are nearly flush with the surface, so they don't present a trip hazard. Only 18" high and one foot wide makes this a great entry level component and helps to build confidence. The Eco Balance Walk has versatile base plates for portable use, surface mount or semi-permanent installations. Standard colors are Green, Blue or Red with Charcoal posts.
